**End Gun for Pivots**

**WING**

## Sime Wing

### Outstanding Features and Benefits

- Bottom bearing assembly is supported by bronze bearings with stainless steel balls providing excellent life.
- Drive arm stroke can be easily adjusted.
- Directional spoons are smooth to eliminate possible blockage.
- Adjustable stops - no tools required.
- Low pressure applications.
- Excellent uniformity.
- Full or part circle applications.
- 2" NPT base.
- 18° Trajectory.
- Slow reverse.
