

SPRAYS

Senninger LDN®

LDN Single Spray Head 92833

LDN Double Spray Head 92834

LDN Triple Spray Head 92835

Complete LDNs

Includes nozzle; specify desired size.

NI Part Number		Description
w/ 3/4" M NPT Base	w/ 3/4" Barb Base	
92833	92833-B	LDN Single, Complete
92834	92834-B	LDN Double, Complete
92835	92835-B	LDN Triple, Complete

LDN Options

NI Part #	Description
51055	3/4 lb. LDN Weight
51060	1 lb. LDN Weight
11086	LDN w/ Drag Hose Adapter
88089	Bubbler Pad, Beige, nozzles #5-24
88072	Corn Chem Pad, CM1, Red, nozzles #5-9
88078	Corn Chem Pad, CM2, Maroon, nozzles #10-24
880103	Cotton Chem Pad, CT-L, White, nozzles #5-24

Features and Benefits of LDN – Low-Drift Nozzle

- Extremely efficient water application with minimized losses to wind drift, evaporation, and runoff.
- Unique multiple deflector pad design allows it to produce uniform sized droplets through the wide range of nozzle flows found on center pivots.
- Rugged design for traveling through tall crops.
- Low pressure operation — 6 to 15 psi.
- **Chemigation Pads** produce an upward spray under the crop canopy, for washing or applying pesticide. Corn chem pad: 58° upward throw; cotton chem pad: 15° - 30° multi-level upward throw.
- **Bubbler Pad** applies water in a gentle, aerated pattern ideal for direct-to-furrow (LEPA style) irrigation.
- **Hose Barb Adapter** along with a drag hose allows water application directly into the furrow. The adapter snaps right onto the LDN.

Bubbler Pad

(Must be used in conjunction with LDN weight.)

LDN Weight

LDN Components

NI Part #	Description
16006	Adapter, 3/4" M NPT
16006-B	Adapter, Hose Barb
795146	Nozzle
145191	Body
88071	Single Spray Plate
88074	Double Spray Plate
88090	Triple Spray Plate

A large selection of spray plates are available for a variety of applications. Specify desired spray when ordering.
