

*DRIVE COUPLERS*

**Cloverleaf® Drive Couplers**

Cloverleaf® couplers feature a high quality insert that absorbs drive-line stress and shock, extending gear life.

- Castings are made of a high strength aluminum alloy – won't rust or seize on shafts.
- High strength die cast coupler jaws.
- Dissipates shock loads to other components.
- Design provides automatic re-alignment.
- Fertilizer, weather, and UV resistant.
- Fits virtually all irrigation system drive lines.
- Supplied with grade 5 carriage bolts – for easy assembly.
- For easy identification, each part has its part number on it.
- Each coupler is prepackaged – makes it easy to organize your inventory.
- Combination ends provide versatility – stock fewer sizes.
- Made in the USA.

**Important:** For safety, always shield drive shafts and couplers. For shield kits, see Drive Line Shields on page 33 later in this section.

Cloverleaf® Coupler Selection Chart	
NI Part #	Round End x Square End
42049	1" x 3/4"
42059	1" x 7/8"
42057	1" x 1"
42039	1" w/ key x 3/4"
42062	1" w/ key x 7/8"
42022	1" w/ key 1"
420173	1-1/8" x 3/4"
420174	1-1/8" x 7/8"
420172	1-1/8" x 1"

**Made in the U.S.A.**
