

DROPS

**Drop Components** *(continued)*  
**NI Flex Drops**

**Features and Benefits**

- Built of heavy-walled polyethylene so they are flexible, yet strong to fight the wind.
- Sunlight-resistant.
- Built from straight stock to avoid curling.
- Color code ring allows easy length identification.
- May be fitted with plastic or plated steel 3/4" NPT fittings.
- Standard configuration is ideal for rotators and spray heads.
- Configuration with 24" premium drop hose extension is ideal for i-wob and spray packages.
